

The screenshot shows a Kali Linux terminal window with the Wireshark application running. The terminal displays a list of network packets captured on the interface. The packets are listed in a table with columns for No., Time, Source, Destination, Protocol, Length, and Info. The packets include ARP requests and responses, and a summary of the captured data.

No.	Time	Source	Destination	Protocol	Length	Info
0	0.000000	192.168.1.1	192.168.1.1	Broadcast	60	42 Who has 192.168.1.1? (id) 192.168.1.1
